

LIMITED WARRANTY

CYANNA VALLEY SPAS

Cyanna Valley Spas ("Cyanna Valley") warrants to the original consumer purchaser ("you") the following about your new Cyanna Valley Spa ("spa") when purchased from a Cyanna Valley Spas authorized dealer or service provider ("dealer"). This Limited Warranty (this "Warranty") does not extend to any subsequent owner or other transferee of the spa and shall terminate upon any transfer of the spa. This limited warranty is effective for Cyanna Valley models purchased after August 1, 2024.

5-Year Spa Shell Warranty

Cyanna Valley warrants against the loss of water through the shell caused by defects in materials and workmanship for a period of five (5) years, provided that the spa is installed and maintained in accordance with Cyanna Valley's instructions and is not subjected to any of the limitations as detailed below. Variances in the shell surface are a natural result of the compound mixture and do not compromise the structural stability of the shell – minor blemishes or scratches are not covered by this warranty. Cosmetic color and surface texture changes due to normal use are not covered under this warranty. This warranty does not cover any damage to the spa that result from improper installation, abuse, misuse, natural disaster, abnormal mechanical or environmental conditions, repair, or modification. Cyanna Valley is not liable for, and does not cover under warranty, any costs associated with removing or installing the spa. Cyanna Valley reserves the right to inspect the shell malfunction or defect on location to determine if the spa will be repaired or replaced. Cyanna Valley reserves the right to provide a substitute spa model if your model is not available.

30-Day Limited Cabinet Parts Warranty

Cyanna Valley warrants the cabinet side panels and corners to arrive at the original purchaser's location free from defects in material or workmanship for a period of 30-days. Fading and weathering of the cabinet occur naturally over time and are not considered defects. The warranty described in this paragraph does not cover damage to the cabinet due to improperly installed cover lifters (including lack of proper support for lifter components).

1-YEAR Limited Component Warranty

Cyanna Valley warrants all factory-installed electrical equipment and plumbing components to be free from defects in materials and workmanship for a period of one year. "Electrical equipment and plumbing components" mean the pump(s), heater, control system, jet fittings, filter assembly, internal plumbing, internal glue joints, and hoses.

Some parts not described in the paragraph before this, but that are easily removed from the spa and do not require specialized tools or knowledge or create personal safety issues, are warranted to be free from defects in materials and workmanship for a period of 30 days. Since these parts can be replaced by you, the warranty for these parts does not include a dealer service call. The parts included in this 30-day warranty are jet inserts, air controls or diverter handles, pillows, filter elements, spa light bulb, and drain valve caps.

1-Year Ozone System Warranty

Cyanna Valley warrants the factory-installed ozone system to be free from defects for one year.

1-Year LED Light Assembly Warranty

Cyanna Valley warrants the factory-installed interior LED light assembly to be free from defects and workmanship for one year.

30-Day Limited Spa Cover Warranty

The spa cover included with your Cyanna Valley spa is not manufactured by Cyanna Valley. All warranty claims must be submitted directly to the specific cover manufacturer. Your authorized Cyanna Valley dealer can provide warranty details and claim information upon request. The warranty described in this paragraph does not cover any of the following:

- o Damage to the spa cover due to improper water chemistry, improper PH levels, excessive use of sanitizers or any other chemical that may dissolve or remain undissolved on the spa shell, or the use of caustic cleaning solutions.
- o Foam core breakage or deterioration or torn vinyl from excessive weight (including from rain, water, snow, excessive heat, animals, or humans).
- o Foam core moisture absorption due to foam breakage or damage to plastic barrier.
- o Chaffing, scuffing, or worn holes from dragging or storing the cover against sharp objects.
- o Fading of vinyl and thread (fading is not considered a defect, but a naturally occurring circumstance due to normal chemical maintenance, exposure to the sun, and aging of the cover).
- o Torn handles (handles are for opening and closing the cover only; they are not designed to carry the cover).
